Dear Jeff,

On behalf of the congregation of Whitnall Park Lutheran Church, I want to thank you for your assistance to us throughout our church renovation project. We are extremely pleased with the final result of the new addition and renovation of the existing facility which is in large part due to the plans and specifications that you prepared to reflect our needs and wishes.

We enjoyed working with you throughout the design and construction process. You were very helpful to us -- always patient, thoughtful, responsive and creative in both the design and construction phases. I am sure that working with committees is not the easiest arrangement but it is the nature of church work. You were able to help us successfully work through and resolve issues, when there were differing points of view, to accomplish our objectives in an acceptable and cost effective way.

Our older members are especially pleased to see the modernization of our outmoded facility yet retaining and enhancing the look of the existing buildings. We are experiencing increased interaction and fellowship between our members and visitors in the renovated facility because of the improved accessibility and more hospitable setting which was one of the objectives.

We wish you the best in future endeavors and would recommend you to other congregations undertaking similar work.

Sincerely,

Ronald C. Sonntag
